

Sept 13/19

M<sup>c</sup>Gill College.

Dearest,

I scarcely know whether to write to you again or not - Papa is very anxious for you to be here in time for Monday's faculty meeting I am hoping to hear from you today, & know when to expect you. It seems very strange to be without you especially when I go up to our house & wander about its desolate apartments

The weather is excessively hot & little Eric insists on

leading a life of wild  
activity: investigating every  
thing with the spirit of  
a Livingstone or Columbus  
he has slept well lately  
wh - is a great comfort his  
resting place being a  
sofa placed in George's  
room against the bed  
in wh - some repairs -

looks seem to be scarce  
the treasure I heard of has  
decided to stay in her old  
place, & only one creature  
has come in answer to my  
advertisement - however  
I do not despair - I  
sent a note to Mrs Gordon  
by a message boy with  
instructions to hunt her  
up wherever she was but  
he returned & said that a  
lady had "tooked" her  
from St Martin St yesterday

When we see these factories at 12<sup>o</sup> - <sup>perhaps</sup>  
I must go and send to the Rev. Mr. [?]  
but - begin to think the sermon is an  
entire myth. There has been no mass of  
98. neither, I suppose I ought to go &  
see about her land. I give so much to  
do much, I fear over paid but rather  
opposite. It must be the result of the  
little no - of such an objection ~~as~~ in  
applied to anything that makes so great  
appearance - the great - when - maintenance  
was nothing to do - just - well - tell you  
are in - I have no sleep fit to look  
myself in the cooler weather come

But this may not reach you in  
the case it is a shocking mistake of time.  
Dear old love - When separated what  
he to see you again! - soon, soon here,  
I hope so truly -

Yours most loving  
Alice
