

Mr. Howe - Sept 13 -
1882

Dear Dr. Harrington

I did not think that I should be so slow in sending you a word of greeting after my visit with you - The reason was that immediately on reaching Keene I started off on a walking trip among the mountains, and hardly settled down quietly again until I had to leave for home.

I feel that I owe you most sincere thanks for the very considerate kindness which made my week in Montreal so delightful. The visit was in every respect most pleasant

and profitable - my only regret, if I should allow me, would be that in the hurry and bustle of the busy time, I had really so little chance to see you. I hope that you have used the concluding days of your vacation wisely, and have as far as possible recruited your strength so as to be ready for your College work.

I shall be very glad if before long you could give us a chance to see you in New Haven - if only I had any right to look forward to escaping from my bachelor den - unfortunately I can not - I should also express the hope of having both Mr. Garrison and yourself here, but such a hope

is too vague to be of much
value -

The machine is just starting into
motion with us here, and I
doubt the same is true with
you, I am sorry that your work
is so confining and that you have so
little opportunity for original investiga-
tions - but at least take good
care of your health, there is such
a thing as breaking down, you know.

Please give my kindest remembrances
to Dr. & Mrs. Dawson and Miss Dawson and
also to Mr. Harniman, whom I would
very gladly have had an opportunity to
meet - With the best wishes - very sincerely yours
L. S. Dana
