

Renfrew Fruit and Floral Company

Amprion 10 May 1883

My dear Barron

Thanks very much for your note  
of the 2nd. The grafts will be very acceptable  
& I will give them due care.

Are you open to a business offer? My  
Co directors agree with me that we should  
get on mines & a number reported on by an  
Expert. I have been commissioned banks  
to ask you on what terms you would  
give us a week or two days. I make a report  
I hope very much that you will see your way  
clear to come up. I will try to make it  
as pleasant for you as possible of course  
you will see that the terms are remunerative.

May 1883. J. Usborne  
Ampthorn

I did not check anything on Nutrient  
rephosphate. but I think on bones  
are all right. New Gales I know very  
little of on Phosphate Spine.

With kindest regards to your family  
Circle & many thanks

Believe me  
very truly yours  
John Usborne
