March 3/1884

GEOLOGICAL & NATURAL HISTORY SURVEY.

Alfred R. C. Selwyn L.L.D., F.R.S., Director.

MUSEUM & OFFICE, SUSSEX ST. OTTAWA.

March 1 1884

Dear Bernard

I should have written
before to you or Anna to
ask whether your throat has
continued to improve, which I
hope is the case.

I have to thank you for the
specimen of Marble which
arrived safely. I have to thank
that Lord Dufferin has conferred
the specimen of Lyree Marble
in the Montreal museum with
Native specimens. The new

York Store is to be distinctly
Salmon coloured instead of pink.
They have set on foot a committee
& request into Gerl. Survey, with
the special object I believe of
finding out what can be done
in the way of collecting &
printing mining statistics. I have
been formed with an intention
that I am likely to be asked to
give evidence & wished to
ask whether you know of any
place where I can find
details as to the constitution
& modes of periods of
foreign surveys in synoptical
form, which it might be

worth 25 while I look up
with a view to possible
purchases. Our library here
is all upside down at
present, so that if you
do happen to know of
any book concerning the facts, or
can do so, I would be
much indebted if you
could put it up to me.
I would of course return
it promptly.

Yours truly
George M. Dawson
