Dearest -

Thank you for a charming letter from Bauff also one for Kuth - I thought I sh^d have had time to write at-length but - find it - is nearly 11^o - & I have written 3 other needful letters, I must now be going - or I wou^{ld} be able to tuck the young ones up, & put - my-self to bed -

I received the \$50.00 for wh^{ich} thanks, as I can now clearly see the end of my present resources - The \$100.00 cheque was safely handed to the father & I have the receipt - Did I tell you that he has made a wonderful find of sponges in a perfect condition - Mr. Hut was helping him dig for them yesterday - I find that he (Hut) is quite up to the ~~the~~ Angelic Dr^{'s} misdeeds, & he tells me that there is a strong reaction set in, in

among the graduates in favour
of the paciers that he - & several
have openly denounced the
cry of the lone man tyrannizing
as false & heartful - That is the
best College news I have heard
for some time - Further ob-
jectionable articles harping on
the popular prof - etc have ap-
peared in "Truth" but Hayes has
written to that paper over his own
name & giving them very plain
& sensible talk - I think all the
governors are pretty hot now?
word stand much more -

Have you heard the
sad sad news, that poor young
Stirling (Mrs Mayo's brother) has
been drowned at the black
river - It is further stated in
the paper that his only brother
was drowned some 20 years ago
wh- if true makes the sorrow-
dably sorrowful one for his
poor father & sister -

I never heard till tonight
that the C. P. K. wanted you to
do anything for them - It will give
you a still further opportunity
of studying the country - I think
we miss you very much here
I fear it will be short-sighted
policy to slight a chance when

you are on the ground. Dr. Steiner has been here
for some weeks & we have left today, but a little
quell daughter of the late Mr. W. G. - stole off a tree &
misplaced her chocolate & he had conducted & now
a couple of days & we to it, what a mess he had
not good - I have heard full directions as to the
next steps to pursue in such a case, but we
will at all like to be obliged to try.

Conrad is delighted with the idea
of your sleeping in a tent & having been
unable to shoot, & we like you to shoot as
many as possible, that he may have a few
coats - Now he is "Dear father, please therefore
the entire you can't make blanket coats, &
to hang under horns on the walls."

From your beloved

Conrad

That is not happy in Cathcart Street, &
have urged her to go home toel - Ruth, who also

promises to bring her sister as housemaid
with - will I think - prove a good & comfortable
arrangement. If - promises well at any rate
I have got a number of more presents
yesterday - I was very pleased - with them -
I have had several steps, indeed 4 - of stone &
shewn very weather & I have promised them a
bag and - shoe & hat - buyery the first - five day
of Park - street - be a when of economical &
thought - to combine the holding pleasure of
his own - their instruction, & safe - keeping, with
your profus vocations & scientific studies. I hope
the Dutchman, will prove useful & comfortable
if he is a vessel - I was about - collecting
letters - will you bear attention at - least
to forward any, that may reach there after
you finally leave - I hope there is any more
part of your going further west - it will be
a better station than Birmingham surely -
