Dearest B -

Letter to & from
Jessie - in which she declines
to let Gordon come - our
letters must have crossed
again - I am truly disap-
pointed - for I thought
his coming wd have been
an advantage in various
ways - also I had intended
asking you if you if you
decidedly objected to Eric's
going there going if Gordon
declined - if so - please let
me know at once & I will
answer accordingly - I think
in some ways it might be
a useful experience, & I wd
willingly pay his R.R. journey

myself - & for that matter
Mother asked me if he wd
not prefer money to a present
& that wd help - however
I shall do as you say, per-
haps they wd let Gardner
come in summer, if he want
now -

Mary Dr. Sturgeson has
just called to see if you
wd give a paper to the
G. People's Ass - 26th Jan I
said I was sure you cd
not - at that date, but
perhaps later - -

Mother & I had a few
sawes with papa last
night - & I tried to let
some light in upon him
as to his D - he was very
reasonable, but looked at
matters from such a differ-
ent stand point. I do think
Boney has been incurable
in undertaking to advise

quick on points of necessity - moment
need of referring them to the proper authorities
however I hope that on your return you
will be able to speak with greater
authority & help to straighten matters
being able to see both interests & points
points of view -

Saying to officers presently
I need - halloo, it is such all the
time - had a calamity, this A. M. with
the persons great - perhaps eleven & now
our total the entire job is cracked out
nearly is, I think we have parishes
if it is the one mentioned & reserve the
Kountess says we think so -

I am disappointed at not hearing
from you today - I shall be so thankful
to be assured that the toothache is
over - as to business at - least - have it done
with you -

also send love I will write you
