I will think  
of telegraph has had very  
little effect. I had just  
sent the second letter to  
N. G. - before I received it -  
I thought I have had an  
envelope addressed to me in  
last night have not had  
a minute to write - the  
little baby has been out  
of sorts yesterday &  
today & can't settle  
to take a quiet sleep  
unfurlingly I went to  
bed to go to market this  
morning - I find I have been  
trying to get my feet  
portable all afternoon  
before I go out to dinner  
who she turn up today  
but Lindsey Russell -

his way to the woods to  
refresh his health with  
a hunting expedition  
while Mrs R. has gone  
to Toronto - so Eric may  
see her there - I think he  
had better leave the day  
after N. was - We may leave  
to go that day, & I don't think  
we c<sup>d</sup> get out without him  
till then & also, there will  
be no need for his Toronto  
friends giving him gifts. his  
school does not begin again  
till Tuesday 6<sup>th</sup> & if he was  
back wed it w<sup>d</sup> do - & be a  
long enough visit. I have  
got him a blk coat & vest &  
think his trousers will do  
with a little alteration, cut  
short - I fear he will be  
obliged to have a new pair  
sent - nothing seems to look  
well with his present - & if  
one pair of his "trews" are done  
however - it really is only a  
question of getting at them  
what - we w<sup>d</sup> have had to

get - between this & spring  
various letters continue to  
arrive & I dispense of anything  
needing immediate attention  
& keep the others - Samuel  
speaks doubtfully as to taking  
the jugs - but will see Brauer  
abt. it - he will send the  
jewelry to mother & me - I had  
a card fr - Brauer Mt. Fort Union  
& Florence will order fr  
him, as well to have him  
strong, he quotes turkeys at 10<sup>cts</sup>  
exactly what - we can buy  
them for here -

I am glad you saw  
your Dr. Hunt - Care received  
your letter about an hour  
ago - I was much pleased  
with it - so far everything  
seems to be gone well  
with you - I no doubt  
you will come home  
primed to resist oppression  
wh. I will be glad of - as I  
think the time of slavery has  
been sufficient & one sh<sup>d</sup> begin  
to think of the land flowing  
with milk & honey -  
Precious, will continue to

caught - but the others are  
well again, though I find  
I have to be careful as to  
severe weather - of which  
we have had plenty -

All but the very last  
touches, has been accomplished  
by the children in regard  
to their small presents &  
a quite considerable pile  
they make - & it is wonderful  
how far beyond the fact was  
who thought - more wanted  
little here below - when  
so many small trifles can  
be obtained that are more  
or less useful or acceptable  
I will look out the Gul-  
Tide & make some use  
of it - The baggage sleds

in capital order. Eric has  
been exceedingly fatherly &  
good to the family, & I have  
sent him down to the bank  
to cash that dividend warrant  
& off to the Windsor to see a  
Toronto directory, & to the R. M.  
office to see about reduced fares  
etc, made as much practice  
in business matters out of the
