

Little Metis  
June 25<sup>th</sup>/91

1891

All love dear from  
the whole family  
Lovingly  
Aunt

Dearest-Love

I was so very  
sorry to hear of your having  
been ill on the train, for you  
seemed well when leaving  
here. It must have been some  
of the tired food you got on  
the train every thing they use  
comes out of tins & even the  
Coffee is from a tin & made  
up with Swiss milk & sugar  
35 cts a tin, makes 16 cups - at  
10 cts each - a pretty good  
profit eh!

Our devoted lover left  
yesterday, & all parties seem  
quite pleased with the ar-  
rangement. I believe the parents  
are to be inclined to telegraph  
consent, in order to shorten the  
survive. I have no doubt they  
will consent. Do you know  
last year he made \$13,000, & he is

jects to make more this year  
\$8000 has been about - the figure  
for several years past, he  
has buildings on hand in  
Vancouver & Winnipeg - of  
course this is private, but to  
have a good honorable man  
of honest people, & with such  
an income, she may well  
wonder a few riches of stature  
& neither she or F. had any  
idea that he was so wealthy  
when he departed he bestowed  
an affectionate kiss!! before  
as a member of the new con-  
vention, I never ever given to  
kissing in my youth, it will  
have to be an art-acquired if  
all the young people who  
make love under my eyes,  
are to thus express their gratitude  
for nothing, but a smile

The weather has been  
easterly since Tuesday, but  
no great quantity of rain has  
fallen & today it looks like  
clearing up -

Remond finished all his  
work - but as the two east  
windows have leaked ever  
more than formerly - he is to come  
back the next fine weather &

make an attempt to put them right; he says so  
he can do so -

Now you had no news from Sweden, &  
It is very certain that Eric has taken my  
a good standing, & think more so than if he  
had several more friends, & here too good, as  
his needs, & was surprised that he was not  
better in Algeria, & thought that he had been  
chance well - The King says 'as the weakness  
if he gets a good shield in French grammar  
this summer & ought to help him - He must  
bring his French grammar with him & I  
will get a prospectus for next year so that  
he may look over the book & inquire for next  
7 Sept. I have no more news Eric has  
letter being a couple of old ones for himself  
Also I gave Kate a few things that were  
he wishes to see, among others, a few letters  
which I must have - they were put in the  
bottom shelf of the linen cupboard in the nursery

It will be there till, unless they ever make  
in which case business ought to know about  
them, there is also a little magazine of his that  
we cannot find they will not order & says that  
myself - ask business if he has seen it -  
the late & this of Butler's Travel, baby is having  
it - at night - when it is a comfort - as it does  
not - read - & I have only brought a little  
with me -

Give your night - give Eric a little more  
money or send it - before long - for I don't want  
to shake round the wheel, & when I hear  
never toward 5.00 - Turkey 2.00 for the washing &  
dinner about the sandy bay road. My & learn for 50.00  
\$82.00 for eggs & alcohol, the remainder is small.  
As we are careful & generally it - we be careful &  
paper comes so soon, I wonder where will it  
be coming - I only hope he will be always at  
his father is not very attractive with his weather  
has shut up house
