

Little Metis.
July th 1891

Dear Father,

We were all so glad to hear that you had shipped an organ, we also would be very glad if you would bring that (I don't know what to call it) but I suppose bundle of music that Aunt Eva sent up to our house about a year ago, and any other times that you think we have been playing.

Dear little Precious is so delighted that you are coming

Mr. Gaylor has been down here since Friday afternoon but he is going away this morning.

I am going a haycart-drive this afternoon with the Molsons and Saregs and hope to have a nice time. Precious calls Millie Miss & Elly it is so funny to hear her.

This is a very short letter but I hope you will get it before you go away to come here.

Your affectionate
Care.
