

With love  
apologies for  
such a tedious  
little scrawl  
but I really  
cannot get a  
minute I am  
so busy -  
up & down at  
night -  
Monday -  
Anne

Metis  
July 5/93

have just  
sent you a telegram  
far I thought you wd  
be very uneasy about  
Eric. Yesterday, dark  
clouds threatened rain  
but only a few drops  
fell & today not with  
standing wet wind &  
fog - it feels hot & only  
a few drops have fallen.  
The mosquitoes are every  
where like this, here before  
& am told that all the  
country is similarly  
afflicted. They really  
brent the family sleeping  
well -

I have forgotten one thing  
that I fear will trouble  
you very - the four  
pairs of trousers that  
I left with the tailors  
and she had two, as roughly  
that makes 6 she has - I  
think the simplest way  
will be to write & ask  
her to bring them to  
Hamilton & ask him to  
pay her - I stupidly did  
not ask her how much  
as Mrs Mays had told  
me what she charged  
her - but - I cannot re-  
member about 35 or a  
pair. If you do not  
hear from her as a result  
of my writing I fear you  
will have to send some  
one to get them & pay the  
woman, which will I  
know be a trouble but  
meanwhile the boys are  
not very well off for very  
necessary garments -

Mrs Tailors is Quakerlike Quaker

Baby's pillow has also been left behind.  
& you as two pass of Eric's books - they  
must have been washed & thick &  
not given to him to pack - I suppose  
either not tell you he has only two  
hair here. My coat - & I thought about  
with you when I was in Eric's way  
sold - there are both large & small  
these - the only other thing is shown  
hence - I need to - you know all  
that later -

Eric's entrance better than  
you & I do hope all well continue  
well - he looked so very nice & well  
& healthy - I think the distance

was as level as the complacent -  
Flaccus looks very pleasant - but is  
picking up - I have never noticed anything  
yet - I have gone every day to no thought  
whatsoever & continued to read things  
I am finding it - pretty difficult  
to get him in, I have not been  
yet able to the house yet - was  
unfashioned my own thought - I was  
free on my travels - He is always  
now - But his relations is 120 have  
harvest of - Dechloga - I thought - I  
ought need to take it - I shall have  
certain share of it - not to a large  
value to get her to make a little  
there will be very few here with  
some within a few days -
