Dearest Bernard -

We have had 2 days of real summer heat, but as no rain has fallen since you left, dust is rife, water carts appear here & there but do not seem to be fairly in order yet. The children have been off on several flower quests, study of hepaticas & lilac past & present & today they gathered a number of little bunches & took them to the children's ward at the hospital where they caused much joy to the little patients. Lois was much interested & wanted to know what was the matter with each child. Holly continues to become more active & independent - but is very restless

at night, & is preparing to get some
more tickets through which he
caused me again to delay the
vaccination - Eric does not seem
to make much headway he
has been out riding twice, but
has failed to get a coney. A
Clifford is at Lakefield - Hannah
out of town - Campbell been
out - & so on - he has a table
for 10 ribs for which he paid
\$13.00 - two hours supposed to
be the limit, but not charge
insisted on - He is slowly getting
through the items you left him
& doing some general reading
for an hour & a half after breakfast.
Allen L. is leaving in
two weeks time & may be away
a year -

Lady Aberdeen is
travelling this morning, & I have
had the honour of reading at her
August presence - at dinner

arrived in that early 9-10 AM not even a
in his position within 7.1. 1860
leave - I was hoping a little thing & by the
morning. Was son - was with a
Lorraine - his is to be at - Mr. Kipler
to school with her at the school
The Ladies' Association of the
Aschland 111 are now in a
Now any one is here replaced that
one - "reliable" is officially to
with College - "reliable" is
& guide also - party - by those
Myrtle Park has written to
the need of the business of
her with to carry out
Ladies in regard to it -
tickets for that Mother's party
went 4- was remarkably fine
