

295 University St.

Apr 25th 94

Dearest B -

6 fine dull days
with rain at intervals has made
the grass green & the trees level out.
We have sympathetically watched
our neighbors the Soc. & moving
out, & so far, I believe the place is
unrented - The College people are trying
to purchase a strip at the back
as a racellway to the hospital.
I believe that digging has begun
at the back of the place -

A Cong Corporation meeting today
much disquieted paper, I believe
they passed the regulation as to
entrance after Sept - wh. I am in-
clined to think is drawing up the
entrance too closely - if the old plan
was too late - & there was a ^{very great}
wrengle as to the grounds - the Doctor

Question in regard to sports being
discussed at length - A notice was
sent you, that the lengthening of
the session was to be discussed
but J. V. W. feared that untouched
I am told that the Prof. are in
mass intelligent - at the very in-
sol. the governors have discussed
this simply as a matter of their
pronouncing on, & with no reference
to the recourses, wishes, or wishes of
the gentlemen mainly involved.

Of course I hear very little of
what goes on as to College matters

Mr. Haenrich writes that after
several "wardy interviews" he has
settled with Mrs. Braconer for
\$18.00 which I will send him
next week - Mr. Archibald has not
sent me the amount of the
mortgage - I shall have to re-
mind him in a few days, has
heine I heard anything from
Toronto =

I went to school very early, but I like to see the old boys
about as much as the new ones. I do not know
anything - Was - He is not at school after school after
school -

Having got some 100 of school packages of study
books well beyond school, I have the books
of school action, of having 10 children referring
books very early - only interested to have
books that when if there is the present, as
the we have never to have to many
then the price of each - I this one about the
house and have very good - I if will make
through business - I shall have very fine
most on Monday - Yes - I that - was the main
thing - I if - were not - for the clothes, was
not - under the children - if they are
quite like has wants if - or of the of comfort -

The quantity of work to do is have some work in
the regular schedule - I have spent most of the day

in the regular schedule - I have spent most of the day

in the regular schedule - I have spent most of the day

in the regular schedule - I have spent most of the day

in the regular schedule - I have spent most of the day

in the regular schedule - I have spent most of the day

in the regular schedule - I have spent most of the day

refusing them. Mrs. Foxall is
incidentally past her power of
sewing, I shall send her nothing
more - poor old lady - her
neighbours the Mrs. have returned
the little boys as fat & brown as
possible, the delicate one though
still looks very delicate. The
Birks also are back. Their in-
valid looks very well - Mrs.
Deacon has come home blooming
& looks as plump & young & fresh
as if she were 57 or 20 - but is still
living by rule, driving out twice
a day & so on. J. himself is
said to be much better.

The Mr. Eadwin's house is let to
a Mr & Mrs Babcock, who intend
to use it as a boarding house.
The Dacylar has given up the
idea of building & the Wotherspoon
talk of buying that lot - Poor
Mr. Sheller is dead his funeral was
today -

I thought I had secured a
quiet - half hour to write
but interruptions -

Mrs. M.C. is going to help
with me as cook, & Harriet will
stay till Sept. before going
West - I will see to the school

Have just got your letter
& am delighted you feel well
at end of voyage - Mrs. J.W.R.
was here Friday - she said
she hoped you did not think
she had sent you over to wear
yourself out with work
I shall send her her news
of your safe arrival.

Weather has been like
summer, now a little cooler
& trees showing large leaves
just ready to break into
leaf - With all love dear
Aunt
I have not long by me all

wanted to say - that Dr
Lilley gave us a whole
lecture on Dr Kerron
if reading of tracts I see a
from his views - if he had
been Mahommed & Mrs L
Inahommed it - we have been
well - It makes me really
ill - to find so little
balance in a good man
if he goes on like this, it
really is too much.

That ~~is~~ of everything
being healed by ~~self~~ sacrifice
& its being the centre of every-
thing seems illogical & irre-
ligious to me - It is often necessary
& must be undertaken ^{because}
if so - but - not - an object of
view - as well make ^{operations} ~~self~~
the rule of a healthy life ^{all}
that is not - It is unity -
That - your Reverend who

played so well on the guitar
is very well after an operation
for apudicitis? I wish you
so well.

quite a considerable play place as well as a pretty outlook with a little outlay - but I suppose had better leave it alone for the present.

Apr. 20th 1870
I have now heard of your report and I fancy you must have had a pretty rough time of it. but I trust you are none the worse for it. A long letter Mr. Saunders inquires if you could help him to place for his ^(the church) more or less connection with Mr. Gill or other names - had I better forward such letters to you or may answer I stare up for you.

I heard Mr. Herron last Tuesday with a very beautiful mind some things excellent others in a degree very so unaccustomed, I remain to my father, believing of to uncertain rules - He is a vigorous enthusiast in the first place & evidently believes in the prophet of a new cre. thought

beyond objecting to capitalists
& big land holders, & the general
richness of society - & a desire to ex-
tinguish money & time, & establish
a kind of no-man in their place
& a wholesale reprobation of
the churches & society - I can
see little practical advice: ^{yet} though
the influence that such talk has
in forming thought generally -
& he does not seem to realize that
France has already done great
things in regulating money - & freeing
slaves, & controlling iniquity, & pro-
viding hospitals, schools & help
of all sorts, wh. is a practical share
of wealth with all men - He seems
to think all religion is summed
up in self-sacrifice, & seeing men
you need not see & look up
seeing God will be understood
if you only do the other rightly.
As to theology - he seems to me very
unscriptural & wrong. & though I do
