

Dearest

Monday

May 14th

I fear I have delayed
you to go through details of
travels that were unnecessary
as half books so very much
better last night. I travels that
even the president A. C. Brown
says he thinks we may hope
that it will pass of us merely
a congestive attack, instead
of a definite pneumonia with
its course & crisis. I rather
hoped this myself from the
second day when the fever
was not continuous, but the
child did look badly. I Brown
looked so solemn over him
that I thought I had better
tell you the whole story as
it was. I hate myself to be
kept in the dark if at a
distance. I feel like tearing the
other letter up only have so little
time

Mrs. Bailey has spoken to me
several times on the play ques-
tion, which as you know has
been much on my mind as
well as upon hers. I she has
finally evolved a play club
& got young Duff who gradua-
ted this year to take charge,
whether he is the sign-
renewer to be seen - At any
rate, it is a grand move &
& the others are to go three
afternoons a week & be in-
troduced into football, cricket
& leisure tennis, as weather
permits - under supervision
in strict obedience to S. Laws
1. To play fair
2. To play pleasantly
I do disagree when judge decide
any question -

any boy to be sent home who
fails to obey - The lawn
ground of Mrs. Frank - the vacant
lot opposite & some retired
parts of Terrace bank are play
ground - This is really what

your time & much excited meers & the rest
