

to deal and - out-
met to the household
of 10.00 to Kate to buy
housekeeping - I was
for 3 to Charles etc -
also I have about
\$70.00 in my own
account of 100.00 that
I gave sent me - Carlin
hundred - the rest
was saved up - I am
the state girls school
next year -
I am afraid I
have the
has gone but
I really can not
it - I no just
to go in of do
of us best -
Fred Olives, I
I print, but not
for

of arthurs - We have had
pleasantly hot weather, &
I have chafed a little at
the delay, which was on ac-
count of Mrs. Barker declining
to let Miss Baker off a day
before her time was
finished - I yesterday both
Luis & baby were quite
prostrate with the heat -
prostrate does not exactly
describe baby - who was
very fussy & cross - but I
mean upset - This morning
rain has at least changed the
air, & they both look better &

I hope may be all right.
Wife insisted upon going
down with them - indeed
he has had a lot of small
troubles for me - I have
hitherto been very anxious
to avoid interrupting
your plans - for it
seemed useless for you to
rush out - I feel as if
I had runished into the
far west - I in any case
all the immediate business
over - But now unless
Eric very decidedly goes
when we get to the Adeli-
onclacks, I think it will
be right - for you to come
back soon - I hear wor-
diful tales of people car-
ried there on stretchers
who are now going about
their usual business, &

so on - but that fears passing because
who has been there is no better &
they are going to counsel - & it seems
about taking him home = about
all that cost he does, or not done
is good will for us - & I do know
wally that over long way he will see
& health = as a good fellow, as
he has always been! - It does not seem
very much - as a practical - much, but
it is his losing strength, & appetite
seem to me so serious = the habit
stands in his way as regards taking
you may be sure! No all I care to get
him available fast - I wish - is really so

also a few spades & such
in a parcel in my cupboard.
I have written to ask
Elysa if she c^d come for a
day or two & keep things for
if you, or I, or Eric ever
w^d take, I have not got an
answer - but Nellie will
be at home - & very likely
might come though she seems
to think it an understating
her address is 216 Champlain St
your next letter will be
from the Int^s I trust.

This is aimed for in
regular mail - I have
not been able to get any
trustworthy information as
to Drs in the neighbourhood
of our farm that is as to their
standing & I am to write to
Dr Broome when I have been
there a day or two, & get his
address & also tell him about

what doctors are there
so if you are in ~~Montreal~~
Braun will probably have
the latest news of us -
I don't forget his ~~to~~ ^{kindness}
kindness. He has advised
as to clothing & occupation
plans, I been attentive to
everything -

Loveingly

Anna

I have left tea sugar cocoa &
molasses in the house on the pantry
shelves - I have packed all or
nearly all small pieces - not the
cereal bill - & not the grocers things
I begged him to send it - in I may
have been a cheque if he dare to
pay bank book (which I will leave
in the left-top paper hole of yr. locked textile cup-
board - & the key to open it in opposite top drawer)
is now only \$42.02 - but I have
^{also not} included the 200.00 per July wh-
has ^{now} been paid in - but I have a draft upon
Ely & Co. bank for \$200.00 - papa thought it
not too much - & also taking \$50.00 better than
in Am. money - also have given papa 50.00 -
