Dearest B.

Will you please order a case of Eggs to be delivered any time after the date you intend to get home, if mother wd like some, order two, for one & a half will not be at all too much for us. (49 days in a case). Kate wd see to them if time is supplied to her. Last year the man said he had so many orders before ours he cd not fill it & there was extra expense & trouble in consequence. I don't remember whether you ordered fr. Lamb or the other man, as wd write myself.

It is true I wrote to Helli if I only knew what to write. You had better tell Florence, that nurses are the only kind of servants in demand in Victoria or Vancouver, for Chinamen are

preferred for the other places -  
I inquired about this particularly  
through Miss Burns, & it may damp  
the ardour of her friends - I have  
received nice little letters from  
Luis & Bernard. The 5 yrs, seems  
to have caught-up to the 7 yrs, as regards  
writing. I will write to them  
all soon - Mr T. & Mary are  
having today - Later -

our friends have left - They were  
obliged to return as Mary had  
visitors coming out in the ocean  
S.S. We went for our cruise with  
them, I only intended to go to the  
village but Eric seemed quite  
to feel like going on so we went  
round "Haven" he did not  
seem over tired, & there was an  
apparent as unusual rise in the  
temp. Also he was weighed -  
every one was to be experimented on  
& I quite dreaded it - but he had  
gained 8 lbs - & he thought he had  
on a heavier coat - at the first weigh.

I am not sure that but with that exception  
As in certainty - he was clothed the same. I am  
very pleased to hear of your having a boat bought  
I had hoped you wd pick up a couple of Quets.  
Do be sure that you have sufficient covering on  
the lid? that the windows is not let your eyes  
ought if it is cloudy. I think you had better  
stay if some of us will the Chelsea boat don't bother  
planning about the house - It had some the  
kitchen things right - I being down the way, not  
but - with the cupboard! Let - Yeckey out of the  
not - as coming to his own views hat - could  
remember, if spoken to, which blankets & quilts was  
in the house when she came, & they will be  
apt - those - I wanted to know whether to give  
you the pecunia or not - I tell you pretty far about  
it. I have got the bits - minerals & oil (oil) (oil)  
but - have not given him any, for whether it  
is or is not - so build the creature, remain in  
mind quiet & quiet. I did not know whether you

told me about the present as not

I have to just - things much just as they come

with my little consolation - by the way

you had got some things for me - I nearly forgot

what they are, but - if you will pay for them

she may have collected on the money for her

expenses, in any case it will be only thing left

rest of the money - I don't know by 5 hundred

all over many blessings, I also the difficulties in

have been safely led through, I hope the way  
has always opened up for us - returned  
purifying. We are however to make the best  
most - comfort us of the means within our reach  
but - I also had tried - to any of them - but look up  
beyond to God's will for us, I his love, I his power  
The most important thing to be desired is  
that whatever God I go to know within the other  
returned as much - or, like the end of the year  
Oct 1st in 20 weeks - with much love  
Anna
