

Saranac Lake

Oct. 24th / 94

Dearest Bernard,

I ought - I had quite a sheaf of letters from the family - such a comfort - B. & Con must - not - quite neglect me, little Lois sends a very creditable little epistle, she must have had considerable help, I sh^d think I received the money all right - I don't know why money orders are not able to be got - but - there is a bank here Potter's Bank, I think -

I had a note from Trudican today, saying he had heard from Adams & w^d see me tomorrow he has been out driving today but Dr. Maule told me this & I sh^d see him some time before he w^d see patients - I shall try & get - I - to see Eric several times before he gives a decided advice

the people here quite worship Jim
& his word commands what can
can be had in the place. He
seems to be the father of the people
as well as their physician &
scientific light. But every one
tells me he is inclined to take
the worst view of cases since
his own narrow, he has still
two rows. I think we are
going to be very comfortable here
& the air does seem different to
me. I saw a stout strong looking
man go past - this afternoon
who has had 40 hemorrhages.
A pretty & blooming looking girl
from Washington, arrived here today
who came with a large cavity in
one lung, which is supposed to
be entirely healed. & she hopes to go
home this winter.

I am so thankful that you
are feeling a little better generally
if you had taken half the care of
yourself when you were well! but
I fear most of the people here as-
siduously spending every moment
of spare time not here had to come here
if they had thought more of outdoors at home.

I guess I was alone with some candles as what
one wish to put the feet warm - I put on socks
& be in readiness - I am sure stimulents are
for you I hope I trust - I am sure stimulents are
the 11-12-13-14 - I don't see why you have not
been. I don't remember your complaining of
being out of - I hope the dear lady is better & that
you are - twice a day & his room is well aired
I don't like his sleeping in the nursery - for
knows it - means had air for all the children -
unless constantly overlooked - I don't know
they in his bed room - if a new bed is put
for Conrad which he really liked - I don't
know how the dressing room, it - don't see any
one needed two such large apartments -
I have don't - I don't - I don't - I don't -
a proper apartment - I don't think it -
I don't know to have any more - I don't
I don't know in any case, I don't know
I don't know to have any more - I don't

Close says she has purchased the pills, I wonder if
she ought to take more or because a certain
1/4 of one about a week ago that she had had
more & was never given than was before. I
do not think I think, for the more suffering is very
debilitating - both low? both seem so illiterate
about - but Kimmel's also seems to be Kimmel's
that you might - have all his & - he, & the
some might when you are out - I feel all
one to a true teacher & a good woman - I
feel all know
great - compare to me to feel she is teaching
instead of but one English, whom more of
to like of & this apparently is typical
seem to find the records had - I hope
their really easy - but Kimmel has
Kimmel's packages about - Eric & I
wonder the name is also one can see -
several had days lately I seem very
apparently I had before he was
before can now I wonder - The
what day has been at - but
we have been much better than
well - I still feel much
time has been lost -

have done our best - & it is just
a fresh reminder of how much we
need daily guidance & how little
we know what great issues hang
on our small decisions & actions.
How often one loses kingdoms gathering
straws - but we w^d not, if we had
our minds more enlightened with
wisdom from above, & w^d see things
in their more true proportions -

Geary is always most-kind & good.
I hope if he is put in J.'s place it will
not be a great burden to him -

I have just seen Trueman
he was most-kind, & examined &
questioned Eric - I want to ex-
amine his urine - I said that if
he w^d kindly see him for a few
times before giving him a definite
opinion I w^d prefer it - & he said
most-assuredly he w^d as we are to
go again Saturday or Sunday
meanwhile he suggests a slight
change in regimen - & to go on with the

appear on = of which he has already
had two half bottles -

Adeline's note, brought on
from T - the same day -

now I feel things are in train
& however they turn out there
will be no more neglect as
last time.

Love
Adeline
