

With much much  
Love My dear dear  
husband, & do be  
very careful of our  
children & be kind  
always every minute  
I miss you, you wd  
find me every  
much better every  
day so thin -  
Love  
Anne

Sevranac Lake  
Nov. 30<sup>th</sup> 94

cannot see that to  
finish the attic at present wd  
be worth the risk & discomfort  
of the operation - & wd it not be  
a mere patch? your idea of a  
staircase over the present one, &  
a proper division upstairs of a  
respectable nature, seems to me  
a thing, that wd have to be  
done later on, if we continue  
in Montreal, also a revision  
of the heating arrangements &  
the two sh<sup>d</sup> be done to suit  
each other. The closets of largely  
be hung in that staircase's  
room, if it is vacant, & half of  
the present attic wd accommodate  
some - You never told me what  
you did about the beds, I hope  
Luis is back in her own place, it is  
much better for her -

I think dear, you had better  
come out here, as soon as your  
lectures are over, & let us together  
settle what is best to be done. Dr

It is to be home tomorrow night  
& I will see Eric some day next  
week. His throat is very troublesome  
& the last few days his voice is  
greatly affected, & I can scarcely  
get him to eat anything, he  
says he tries his best - poor boy!

Tomorrow will be Dec 12  
& our lectures will soon be  
over now - If Eric goes home  
it seems to me Clare ought to go  
mother w<sup>d</sup> take her, but that  
w<sup>d</sup> only be a half reparation, &  
I don't know what mother w<sup>d</sup>  
do if Geo. as will come down.  
I w<sup>d</sup> think nothing of a temporary  
rest in her back chair but I fear  
she w<sup>d</sup> think it an understating  
also but Clare w<sup>d</sup> be well -  
& I look after - another cold  
has occurred to me & Flora has  
asked her there for Xmas holiday  
how w<sup>d</sup> it be to arrange for  
her to stay on there, I only sug-  
gest this - I dare say Mrs M  
might offer if she knew, but she  
tins so plainly, & I think C  
needs plenty nourishing & stim-  
ulating food - & as much out  
of doors as possible - Also if Mrs  
Kessel goes anywhere suitable  
for the winter, I wonder if she  
might take her, I only suggest  
these things for you to think of -

Heute night - & as well every also but - that seems  
at present has impatience & if I were away, I  
at sleep with little if needed. & if an evening or  
convenient - I always sing & asked we come by  
the day though I fear we'd not be able to get  
on without - her = I do not see the possibility  
of her going anywhere but home - he wd be  
constituted superior of in a house in the hospital  
laureling houses are not comfortable & wd not have  
him - I am not of course being priced, to take him  
& am reticent - if nothing had been in her  
old house, I wd have thought that, & if only  
had a large enough house, I know she wd not  
just it - of our disposal - she wd take down  
also, but her food is so good. This is as far  
I have got in my thoughts, but the very first  
class of, you shall see? But I wd like for a  
some and when the form of retirement work is  
over - only be very careful about catching cold  
& try & keep exactly had you can get here for the average  
miles seem to have no plan needed.

I wd like to see the effect of a sunny week on Eric the  
one day we have had yesterday - today again  
grey & dull & not so cold - We have had in all the way  
about season of the year here - if we go home at 10. we  
will go when the West begins - I wish I was  
Further off - for if it did not make a point - I  
could not see it along on wd the well. you will be able  
also to see what happens in the bed of Aug. do not  
but to take an important article I cannot find  
how very dry, the daily fluctuations show me my  
working back slowly - I should know whether that  
thinking the worst - as the best

you must not think low! that you are affected  
above others, in reading this reminds I remember to  
on as moving away, terrible family tragedies, so many  
persons appear elsewhere: I think I ought to  
feel very anxious to do all we can to help others.  
at. our hearts on the things that don't pass away.

I hope D.B. is doing his best - for leave - the type  
has not been out - the being far his, with it - not -  
with of inspection - Red the Recovery must be  
at 10. hours - I expect you on - so far long but  
some of them might be to read well, & I want to  
read each month = I wish my. Missis, wd give the account
