

Re Mrs B. J. H  
head with his wife.

Montreal  
April 1/95

Dear Dr Harrington,

Dr Johnson  
mentioned to-day  
that he thought  
all arrangements  
were satisfactory  
regarding your views,  
and that you need  
not hurry home  
on their account.  
I merely saw him  
in the old Library

at the Convocation  
Meeting. The  
Medical Convocation  
was a charm as  
usual, and much  
congratulation as  
to no of students,  
New buildings, &c.  
Thank you for  
the kind letter,  
I feel very sorry  
for Miss Vaughan's  
troubles to which  
she refers, and

Hope a way will be  
found out of them,

Our snow piles  
were scarcely diminished,  
but the weather has  
been mild and sunny  
so that the children  
are able to be out  
and are getting a  
little colour into  
their cheeks again.  
I shall send you  
Newspapers now

and then, and  
shall see that  
letters coming here  
are remarked.

Yours very sincerely  
J. M. Dawson
