

Acc. 1211

Mr. Nelson
old maid!

St. Montreal.

April 5th / 1895.

My dear Father,

We were all delighted to get news from Ashville, & to see those pretty leaves & little flower. We have had our History, arithmetic, & Geography exams. I do not think I did very well in my History, it was so difficult. I did better in my arithmetic than I expected, but it was a

much easier paper than usual. As for Geography, I did not think any one could make such a paper. If she had only asked us the names of places, rivers, or capitals, but it was nearly all products, or what is such - & - such a city noted for, none of us did well in it, it was such a hard paper.

One question was to draw Africa & put in all the rivers, M^{ts} & Lakes, I could not put them in I could not remember how they were placed on the map. For Monday we have French & Literature.

Kuth is now playing
"Old Maid", with Mr & Mrs
Molson & Miss Hill, she
has just finished scree-
ming, so I think she
must have made Mr
Molson "Old Maid". I am
not playing as I cannot
when I have my French
exam, to study. Tomorrow
morning I am going to
Dr Stirlings with Mr
Molson. My eyes are
much better since I have
had my spectacles.
In the afternoon, Mrs
Molson, Miss Hill, Kuth
& I are going to a
concert at the Windsor
Hall. There is just one
person that sings & he

is a man. Babys face
is ever so much better
he is again becoming
good looking. It was
perfectly lovely out to-
day, but very sloppy
under foot. Lois & Eva
were both out, they
both have splendid
appetites, Evas face is
growing fat & rosy.
another scream, Mr
(Molson must be "old
maid" again) yesterday
who should come up to
our house but Mrs
Russel, I did not see her
as I was not at home
but we are going to-
morrow, in hopes of
seeing her. I hope your
cold is quite better &
that Mr other keeps well
yours love
