

Little Notes  
Sept. 21<sup>st</sup> 1905

Ken last week  
is still in  
Albany and  
with  
Purchlone  
Anna

am so grieved that  
your face has again been  
troubled. I hope you got  
that tonic directly you went  
home & also that you took the  
opportunity of being at home to  
write to Dr B. (I forgot his name  
in New York - must that you  
have some months to record the  
night - give you more light on  
the subject

We have had perfect  
weather yesterday I was out  
in the field most of the after-  
noon with the two boys &  
on our return we lit the  
Boys' shelter which made  
a fine blaze. I think it wd  
be wise to light the pile of  
the Flats also in case of its being  
done later in some careless  
way. I say it is met by  
the way, whether through  
mother's talk or their own  
apprehensions - Dr Keefe, Tamm  
& Cecil, patrolled the road  
last night - for fear of the

burglars - apparently 5 unknown  
men passed down yesterday &  
no trace of them was found after  
Sandy Bay Hill - so presumably  
they were lurking about - I really  
have felt no great - uneasiness  
such a lot of cry it seems to me  
little mad - I circus - men out of  
pans & mark, do not seem to be  
of the awful type -

The fence is finished & the  
gates put up - the latter much  
inferior to yours - but it will  
look well enough I dare say  
The best of the old fence has  
been put across the other cottage  
& our old gate figures there -  
mother will be busy till the  
last - though now the fence  
is complete all round, the  
morning cannot concern us so  
much as regards overlooking  
This wet day will be a rest for  
her & always find such a  
pull so much noise & confu-  
sion but the children are good  
Con attending to Bernard's  
& the little girls after morning  
plays reading settled down to  
new kindergarten cards - I have  
nearly finished writing the  
envelopes which will be on  
they has to do later on -  
I have also recently be

thought myself about the situation of home  
W. covered - all. On week-end a house-keeper  
was for a few days with Misses, but what  
Misses will be remembered of - in cooking  
for us all? During some household cleaning  
below stairs - if help is not sent up - each  
day either at 11 or 12 stay till night, as  
before breakfast - & stay till 3 or 4, as  
night - hours - I do prefer the former, as  
that does not then let me to - if she cannot,  
then by - speaks of sending Bella - down her  
she is a sewing girl, but generally sandy - if it  
is her suggestion for two weeks she is to be  
with - remaining - a little evening - so or 8  
to start us pair has the winter - I am very  
to trouble you about these matters, but think  
me of them please might - serve till 10 or 11  
and what next - I hope I can that better last  
letter also a washing for you before we come  
very Friday - if not, the whole of the house  
I do for both parties, as well as - have next
