

Connell ill - 295 University St
Sunday June 16 /96

Dearest Love,

I received your second letter also the telegram telling of the sleepers safe arrival - I saw Mrs. Motion also who was bewailing their absence, Mr. M. called this morning with a bunch of roses & was also speaking most regretfully of them, I hope they both will write at once -

We have settled into our quiet life, the weather has been very pleasant - the last two days. I can have been up & wait on the gallery yesterday & today - I spoke to Dr. B. yesterday he said he quite expected me to get off by the end of this week or beginning of next. I also said that I hoped he was giving his unbiased opinion as to Mutes, for though we were strongly prejudiced in its favor

we certainly wished to do what
was best for the boy, & w^d do
it at any cost, or trouble, he
says the Slight being is decidedly
better, & again referred to Harold
Hesse, as having been in a
very similar condition, he in-
tends Finley to see him again
in a few days, & then decide
definitely. He says each day
that he finds him looking better
I think myself he is looking a
little better, & his fever is slowly
diminishing, but I find it
extremely difficult to feed him
he takes his milk tolerably well
but I dare not wake him at
night to take any - & that is what
I hope Metis may help in - It was
after this talk, that I telegraphed
to you - for we have no suitable
place for our invalid - I fear
mother's house w^d not do, it
w^d worry her greatly, & I don't
think the child w^d be happy
it is the others, & the home life
we long for, more than the place
he wants to have here, & if the
fence is put round the garden
I suppose he might - Where
we put him in our house
but we gave him the library

I'm I like Miss Baker's room, but we cannot
then but ask - till the end of her month -
Also, what about the place I brought
previously - Did you change with them
as not? Papa says you stop, but I think not
I do the others to go there or not? Also no one
has come? you best not tell me about that
either? Perhaps says he is coming ^{Monday} Wednesday
I it will arrive soon to water him -
con. wants you to keep my wife from - that
may be our job the front of a ^{church} ^{roof}, & it
if there will be made over =
Merry Taylor was kept yesterday night as
usual - I have brought spectacles I have
brought sending them by George's but they have
again changed their plans - I must try
I first - then - I can see nothing of utility
may but will look again. I refer to the
can do without - the blanket - for some time
the mother goes - I had known in this or

I got of course never used it - by children
con - wants to know if the pack of pencils I
sent later also, I try send brought
has if not - he will bring some later, he
say I he does not want the pen to be
of, he will show it when he comes -
very good, dear little soul! about every
but - eating - lol - we know about their
business matters also - Also I have got
bill for the telephone from your
next - but Mr.'s name is on it as well as
she seems to have paid at - last P. man for
8 on = 9) perhaps I shall have to pay it
about - like to speak to his of it - is so like
begging? I get - they might send her a
What has given me the money for the tickets
which assured safety - I had been ~~thinking~~
to him =

on that money for the telephone
I sh^d think it was quite
the thing sh^d not you -

now beloved! take the best
care of my dear, good, loving
old husband - & let me have
the happiness of seeing you
look well & bright - when
we meet -

Lovingly

Anna
