

295 Quicquidly St  
June 6<sup>th</sup> 1896

Dearest B —

Your telegram  
reached me this afternoon.  
F. Betlehem was not in the  
geography when I was taught  
& I am unaware of its merits  
so shall send this to Phila-  
delphia.

Baby continues to look  
extremely well & I have my  
hands full to keep him even  
tolerably quiet. Dr Deek,  
came in today & was amazed  
he expected to find partial  
paralysis, & so on & I'd scarcely  
believe his eyes. H. & Brown  
are both quite nonplussed  
but I'd not get Deek to  
admit that the cause was  
probably accidental rather than

functional, he said we must  
wait & see. Well - the child  
looks so well. They made  
me cut his pretty hair the  
other day, but - what is left  
curls all over his head, & I  
only wish I could get a big  
photo taken in a pretty new  
night-gown. I have got for  
him his new ones so hot -  
We have had great heat  
the last few days - & I think  
Monday will see Clara, Kate  
& the three little ones off.

Bernard is up at the  
Inalsons & seems to be in  
high favor - he & Beulah  
made a celebration for  
his 10<sup>th</sup> birthday.

The West man is down  
& I am tired out.

Kindly greetings to  
your party -  
Lovingly Anne  
20 yrs tomorrow
