

To  
Philadelphia

295 University  
June 8<sup>th</sup> '96

Dearest W.,

The Metis party  
left this morning, in great  
spirits, & baby has kept  
well through the day, he  
has a capital appetite, &  
is very jolly, but sometimes  
hard to amuse - he cannot  
stand on his little feet  
& he gets tired of sitting  
& every now & then flings  
everything all over the  
place, as an outlet for his  
energy -

I cannot acknowledge  
any letters from you as I  
have not - none, since the  
post - from L. W. - I only today  
has it occurred to me that  
no doubt - they have gone to  
Metis - I tried to telephone  
to the U. O. - but they have none

I must - try I send word  
to have that stopped -

I must - telephon to Mary

I - for your whereabouts  
as I have now no guide.

I suppose you today in  
Philadelphia & after that

know not -

Con - has just - come  
home - as as the family

I am sure were to arrive  
at - Essex Av - & they have

just recovered from  
German measles - & I did

not wish to chance  
that being brought here.

With love dear I

hoping you have continued  
good success in your

journey -

Aunt
