

which she can take  
marks of any or very  
good - I had a  
note from Laura  
as usual Mrs. Stanton  
I had consulted  
Cecilia's friend, &  
she talked not - even  
having names -  
I apparently have to  
the idea of altering the  
name of Livingstone  
to keep of the class  
to stay remains  
With love from  
I should like to  
hold & encourage you to  
from your Aunt  
me, & you still seem under  
the burden of discouragement  
how curious that after pursuing  
so far in the U.S. to collect most  
ideas, you should find so many  
good ones, near by at Toronto.  
I hope what you have seen may  
be helpful in your own work  
I hope you will also accom-  
plish your visit to Niagara  
& that weather may be favor-  
able, here it is particularly cold  
recently & this morning  
till about 9 o' & then cleared  
We have had lovely colours  
shades & shadows on the water

partly as a result - of slight  
wind & surf - & partly of the  
changing cloud & sunshine  
Parters seem comfortable  
& Edith Hickey is in charge  
The "Lady Elizabeth" - I have  
not seen her - I fancy they  
& Mrs Russel will go about  
a good deal, & we like to  
include us - But I shall  
not - am far dear little  
Hoffie had another of those  
dreadful attacks two or  
three days since - just 6  
months since the last he was  
looking particularly well  
& there was no special cause  
he had had more fruit  
than usual, as Mrs K had  
brought some - & he had had  
his feet bare on the warm  
shore, but nothing else I  
think of - he is quite himself  
again - & has almost no  
nervous symptoms left -  
only looks a little shaken

2 Steps longer in the day since today, he  
remained quite himself for many days, a  
handful - the disease is - however, only  
resting & watching, I don't like to  
arrange from home - It was as many  
first - when he felt as if in the day, &  
he went - it is very good, that he  
not another when he was spoken to  
for quite 15 minutes after he was  
open & turned up, & he was able to  
look at - in other words about him &  
just received the ~~first~~ away - though he  
tried to stay, he had things for, he was  
so shaky - tried to be with, I remain what  
to clear his throat -  
I am as fast as I can, this week -  
if you hear anything as to change of <sup>hours</sup> ~~hours~~  
and opening for ~~control~~, we do & ~~do~~ & know

down, as I must write to Mrs England in  
time, & receive other such matters -

I think I had a cheering letter from  
you a little, one of the few people acceptable  
to both, & always bright - the day was  
warm in the cold heat, & will I think be  
here till over a week - week in any case

It was very good of you to think of the  
coffee - the pleasure but lonely, & we had  
two large bottles of wine, the red sprouts  
are pitched & made into jelly - the black  
tea very good - I have heard nothing

I was indeed very good of you - I had  
10,000. to repay Aug 10, 1800 & had 10,000.  
I have been to the Navy Institute, & also  
to the Ministry the news of my return, & also
