

Little Luetic
Sunday 14th 98

Dearest B -

I enclose you this claim-
ing little bill, & only hope it
won't add bother to your other ones
if there is any difficulty - about
it, I cd lend you some from my
\$1000. wh. is still in the Merchant
bank - I enclose you mother's 50.
wh. she has again mislaid of
but I suppose it won't matter
I did not notice what she had
written on the back till this
moment.

I am also very sorry to tell
you that Woffie had another
attack last night; shorter than
the last one but much the same
in character, less distressing for
he threw up at the beginning, &
also he seemed to me to come out
of it - at the end more quickly
He is as lively & merry as possible
this a. m. I fear the success
ment of day before yesterday, & a
rather too good tea may have
had something to do with it. I
includ I have not been so
watchful of him in little ways
as I used to. my anxieties being
more fixed upon the larger boys.

Do not feel cast down. I do
not. I believe the child will
entirely outgrow this, & be a blessing
in the world - otherwise I could
rather be died of, now, in his
secretness & beauty, among the
many little ones who make up
a great part of the kingdom of
heaven. I have great faith as to
this child.

I am sorry that all the
place will know this as two
boys were here at tea, & some one
sent for ice which we did not use.
Dr Kemp was most kind, &
stayed a long time.

Sincerely
Anne

If you are lay - I have
very little money left.
