Dearest W -

Conrad had a fine day yesterday, a duck - a number of plovers - a least 1 day seen - trout - I a beautiful mosquito hawk - being the result. This last he is sending to you, thinking it so beautiful a specimen it ought to be skinned or stuffed, he seems quite anxious to have this and I think it would be an excellent thing to teach him giving him a useful & thoughtful occupation for the fall - Percy Marshall has gone in for this (it seems) & marks a lot at it - remembers this if it comes in your way - Claire wants 1 new film, if you not kindly have it - sent - several are the 50<sup>th</sup> ones sent unexposed - being pocket - I want one - pocket - Kodak. 35<sup>cts</sup>. Also I must trouble you to put the enclosed to Miss Phillips, Poppy has made away with the paper I had written it on

& you have the letter -  
mother has suggested the  
arranging rooms for the 8<sup>th</sup> the  
only day she could get it - I have  
secured a place for Conrad for  
the 5<sup>th</sup> & supposed I had  
others for the 12<sup>th</sup> but Auntie  
has made some mistake w<sup>ch</sup>  
I am trying to straighten  
out -

Time short -  
affly -  
Auntie
