

Little Metes

Sept. 1st 1908

Dearest -

I suppose you have gone to New York. Eva had asked Hope to cable to her if she could stay longer, this would be to the town address, & she would like you to telephone to the office, to send up any cable coming for her domain to you, the cable code is in paper's top library drawer under the green stamp box - the key hanging on the nail with the Egyptian face & the clear key on the ledge over the back dining room door = ^{you could translate & forward the} ~~French~~

Marie Arlette has given me a paint-bill is this all right? I have paid the water, I have \$5.00 left. I may also buy some boots here, they seem fairly good looking & are cheap - I wish there is an old tan pair you have left here (lace) do you want them, Bernard really could wear them if you do not.

they are a little big, but not
worse than old ones of Corish
has been wearing -

Flarence is off today, the
train service has been extended
to the 15th I don't know whether
this will relieve the 12th on
the whole I think I will stick
to the plan made - It was
stupid of me not thinking of sending
Lion, up by the day train. My first
idea was that he might not have
a night's sleep - & that there was
such a muddle of messages & replies
& telephones & so on for mother &
myself, that my mind was all
on the detail, not on the plan.

I have written to see if I
can get - Marjory Cameron, sister
of Jean, as cook - she is to write
to me at 295 - I expect to arrive
early next week - please give
any such message, also I
wish you w^d put me in
calling back in my desk (dining
room) to make a list for Eustacia
if Dr Walker is chey - names it w^d
do for him also. w^d it not
let me know any one you w^d
specially wish - What a sad
thing for Dr Warton to be ill, so far

away - Has had 11 - 9 one to him &

W. has had 6 - 9 one to him & I
wonder if I had any more - I think
people came up & had some of the
cake & some of Ruth's raspberry
fruit & some of her diet all the
people - I have also heard of an
entertain to come to me - she was a
week - I don't know that I do
take her - she is willing to pay
but - I like to come to a place -
as a lady's maid & maid at -
maids - I am & she is -

But I don't think it - I
wonderful, but I don't think
turn up - I hope you will be
right - I am tired & I don't
so lovely - I am sure that
with her, who has been ill since
surgery & I am

some anxiety - as Dr Kemp does not seem able
quite to make it out. Her stomach is so irritable
she can keep nothing down - Mrs Peck usually
went up to town with her yesterday - she has
so much trouble about her.

Wagon is keeping very well, but is now
rather to get off, he thinks the cold now is
typhoid him - he feels it - chills at night.
Edward is much more red-rumpled now
that the week I contained - his situation is now =

I think we need manage a quiet summer
has been next - good, the constant excitement
caused - he good. he suddenly seemed kept
quiet - I also enclose a letter of a half-
pencil has the least - you say they will
have to be met by Mr. Dowler the Locksmith
some week further - I could well try I repeat
last - could think the rigging was covered by
last - repeating in coming ahead of the mast

parcing the batteries - Wm says a
mast sh^d never be left in place
in a boat like that - Eve says what
is true that our boat was out
of the line of the protection of the
rocks & that it is absurd when
we have all the shore as it were
for the other people to assist us
instead of going further the other
way if they would rove another
year we must see to it, I think

Wm is coming back here
for a day before leaving for his
& Underly Bay - I wd have liked
F to go to her house but she has
arranged with Mrs Day & Miss
Baker she, the latter is going up
to Utaena with F for a few
days, as the servant has been
creaky I want to have directly
all come down
