Saturday evening

% G. M. Dawson Date?

Must be early winter as skating is on -

Dearest B -

I much wonder

where you are & how you fare, & do trust, that your familiar demon, has been ~~alarmed~~ startled by the journey, or change of air - or the quiet of the childless chambers: - If only the pair goes, I dare say you will do very well, & do not take home - Mr & M. Evans, & Mr Lindsay Kessel, nearly had "strokes" at the telephone when inquiring softly after your health, & even obliged to mention that you had gone to Ottawa - I quite miss my patient, patient - & have to withdraw a tolerably quiet room, far all the hurry & scurry of family life

I deposited your cheque  
without difficulty & got  
some money. Also went  
to see Mr Ball at the Y. M.  
C. A. & had a look at the  
gymnasium, & a talk with  
him as to hours & regulations  
& the need of being there  
always & so on. so I can  
regulate Cori's going & coming.  
Cori was delighted with  
H. Furniss. All the world  
is gone skating most lately  
& Walter telephoning for  
Bruth & Clare to skate.  
D. Boney especially inviting  
Cori to hockey on their rink  
& the Kreinharts begging  
for Bernard to grate  
upon their "hard talar"  
as Boffy called it after  
some examination.

If you had better don't think of  
coming home till Wednesday, if so  
true less of saving time & do so for  
you are there when you see you  
necessery realize, I must have had  
pardon in these last two weeks

But I the two letters  
had a very amusing concert than  
the scene of action being the recovery  
upward, the musical was was a  
one with occasional & the last  
piece ~~of~~ another I had made  
a great display of signs as well as

small table, which the record covers  
from the corrected beneath the  
Morgan was a third, few small  
copies illuminated the record  
In the a program - do Murray  
with small for you -

Very truly  
yours  
Anna
