

Little Gules

June 14<sup>th</sup> / 99

Dearest,

So glad to get Clara's letter, how amusing she is! I laugh every time I think of Lady Aberdeen looking meek amongst all the other nobles - & the business & Rankin's baby being fed on the same principles. How the child is expanding & opening her eyes & hearing. I think I shall spend the summer here & see every funny, & let us take the rest over - Conrad wd grow humbly & Keith quiet. I do hope my the good physical culture Lester gets at his Eng school it is what Keith greatly needs but I see little chance of at Trafalgar -

she must take all she can  
get here, reading, & walking  
& tennis. Carol has muddled  
the pencil-wallet tin this time  
& repainted it, so I hope it  
will be a success. The boat  
he has also repainted but it  
is still at his house.

He is working now at some  
improvements on Mrs Frank's  
house. The fence is put in  
& marks all right. Turkey  
did something to it with copper  
wire that seems to have put  
it right.

I do hope nothing will  
keep you in town later than  
the 20<sup>th</sup> you know you do  
have been here a month  
to fulfil your medical orders  
& if that mortgage business  
drags on I think you had  
better leave it - to drag along  
& write abt it. You really

will have to stop all these people's money  
affairs with some business houses, & at least  
have peace to see to your work.

My wife wants to see you that was  
was a big success than yesterday  
a royal she & he received quite a enjoy it.  
My father has a message for you to say it.  
I want them you - & I had to go a evening  
today I took the way - then I got - my's was  
rich since as far as the light-house & the  
was situated with the interior of it & the  
dpt. - leaders, & the two lights -

as soon as I appeared  
at brother or some one who's wife - see  
also is to go to see some - this is my  
the holiday week & the various mentioned.  
Anna will come & you had some work in  
the morning afternoon

There is a book on  
Sketching in the book store  
in New Haven that I want  
much if you are in the  
way I wish you wd  
mail it - small business  
book by Green - was  
originally 2 paper bound  
thin vols - was in sketching
