

I hope the weather
will recover by late
the other comes
is every as been
they warm
with Con & Ruth
to keep out warm
coats of I will
best wraps of
weather require

Love
Anna

Little
I fear we really
need the two
chairs the two
in the school room
two of the black
are broken
never mind the
black

I hope you
have got at least a portion
of the cold weather we
have here, we wd gladly ar-
range for a little heat as
yesterday & today have been
wet, raw, & dreary, the
sitting room is barely 60°
with a fire - & all warm
garments in requisition
I sent up two kegs for Florence
& she was quite glad of
them - I have had her
up here through the day
to let her get on a little
with her settling - Her nurse
is a very nice-looking
woman, a person out wd

at once be able to count on
& I hope she will have a
good summer -

Julie here is most well
& will do her best, I have
not yet secured a super-
numerary but hope to do
so tomorrow

Miss M. will I think get
on well too, though the life
is entirely new to her, & she
has an inclination to
cough, I don't much like
however no child sleeps
with her. & she & Daffie
pull together nicely -

I am very sorry about
that mortgage. It is really
the first thing of the kind
that has gone wrong in
your hands, & it is partic-
ularly annoying as it is
Leicester's. However it may
come out all right & I
sincerely hope it will, as
it would be rather hard to
have to pay out the little
that has come in, but
of course you must do

whenever you consider right about it. I do not regret - has the lack of money if it were successful has something has always been promised when this was a need - I as someone remark. We can not promise all we want, but - all we need.

The Lutescent cottage is occupied. Mrs Wheeler, I guess Mrs Agnes or some one also in the of other cottages. I write to Mrs Peterson about returns at Attai. I only wish we could get well and cottage 5 or 6 miles to right - as they were near the Doctors are down & nearer the house has departed. I also hope Donald will not get his hand upon Essie - has I could think he is a man

brief for Counsel - Con - wants some of
the case rephrased, & who has recalled news
of better deals than his own - & a man
premier is a very, very important thing
con is improving so much, & if he could
up with better to better, as Walter
bring on also - I wish he could ask a real
price please others to stay with being
I will take any trouble to make sure
copying - - only 40 - con. forget to pack his
shells - for I need them afterwards - they
are the ones I left - on his head - (marked
either 6. or eig. a.R.H.) - I am sorry that
I had to send - I am of other's bills in
my 5000 head of rain - who need to make
ours - probably will be - but know his name
& of the do it - I can't say the assistant
Nolan & we could do them here -
