

Leticia Miller

June 11th 1900

Dear Mr. Bernard,

I fear that you are having a hard time with the Library Ass. - I do not think you had any obligation to bail for it - Now that Mr. Gill is so big I think the old need to work for every department no longer holds, & you are connected with several - I cannot well avoid it - I hope it will be the last time you allow your good nature to overcome your prudence - You had none too much strength to pull through yr. own share.

I do hope you will manage to get down for some of the quiet days - Nellie is better, but not up to much yet - of course I will be careful of her - I wish you wd. bring more liquorice powder as there to feed her on that, & some

comparative tooth powder
for B.S. I certainly bought some
for him but it cannot be
found & nothing else will
suit his needs

No more time I am
sorry to say -

B.S.'s blue over coat was
left hanging up in the back hall
& the invaluable rubber cup
was also left behind -

Very
Dear

I hope it will
be the last time you shall
hear from me - I cannot say
I do hope you will
enjoy the quiet days - Helen is
better, but not up to much
yet - I wish you were in camp
I wish you were in camp
I wish you were in camp
I wish you were in camp
