

Acc. 1211

Thursday November 1<sup>st</sup> 1900

Dear Father,

I am sending you some berries to see if you know what they are I think they are a kind of holly and also there is a few leaves and they grow on the side of the river I dont think that they are poisonous because Mr. L. squirrels eat them I dont think they would eat them if they were ~~poisonous~~ but I dont think I would like to eat them.

Please tell mother that I havent got that film that

fine, and after we had  
eaten it we had to go  
to bed and we were all let  
stay in bed an extra  
half hour this morning.

Here are a few spelling mistakes  
that I have to write out for  
to-morrow. Conscience 500 times,  
conscientious 500 times, business 200 times  
busy 200 times, suspicious 50 times and  
six more ten ~~per~~ times each and  
If I do not ~~do~~ them they are  
doubled so that I am kept  
pretty hard at work.

I got the Persons magazine  
yesterday and there are some

she sent me on Saturday  
I think it must have gone  
astray or I would have  
got it by this time.

We had a fine time last  
night Mrs. Red had gone into  
town and came back last  
night and she brought a  
great big a basket grape  
basket full of nuts and  
we had a fine time eating  
them and after wards Mr. S.  
brought in two big plates  
of pulling taffey and we pulled  
the taffey as long as we  
wanted to and then we  
ate it, my but is was

five stories in it, I am nearly  
finished that book called  
Two years before the war.  
and I will send it in a few  
days I have to get my stamps  
from Mr. L. but I wish you  
could send me some.

Mr. L. is taking most of us  
through fractions again he  
says we dont know them well  
enough I think I will have  
to close now so good bye  
Bernard. G. H. Hamington
