that you have had such
hard neuralgia - just the
slow collapse after the hard
spring I fear. It is said I
I do begin to wish much to
be back. This great wonder
of a town is not to my taste
despite its many keen inter-
ests. We are only spectators.

Don't let money considerations
prevent you deciding for B.S.
to go back to Berlin if you are
satisfied he has got on well.
I think it is best for him. I shou-
ld feel it positively wrong to not
spend money. I think our wife
manages all right. If you are
short - about - Louis' first payment -
take some of my money:

I did feel as if ~~some~~ ^{some} ~~over~~ ^{over} the
time to make a new start
for B.S. - but if the way is
not clear he might go to
Berthier till N. was, that wd
mean country life through
autumn, & give us time to
make careful inquiries, for
this next change sh^d last till
end of school days. I never
heard what - May L. said about
the A.A.'s - or whether you had
found out how far on B.S.
was. Also if you are seeing
Dr Farber you might see if he
had any idea if Mr L. wd make
B.S. more one of his family & leave
him live with the others, he wd
no doubt teach him in any
way we wished. Is there any one
at Lutes who c^d examine & grade
B.S. There are some advantages
in going direct to Montreal than
soon c^d I come & find you there.
