Little India.

Aug 24<sup>th</sup> 1903.

To all at  
Litle India  
you should be  
there -

My dear Father

We have been  
delighted with your two  
last accounts of Norway &  
the people. The Laplanders  
must have been very inter-  
esting. We had planned  
to hold our Bazaar last  
Thursday, but it rained  
so hard that we could not.  
Friday it cleared up, & every-  
thing went off well. Bro  
Molava ordered ice cream  
which was a great addition.  
We really had a very good  
show of flowers. We have  
even more dahias than  
last year, & they are very

which were much ap-  
preciated + sold for \$1.00<sup>each</sup>.  
Prof. Hutton + Prof. Cappiz  
both came, also Dr<sup>r</sup>  
Sewie Sutherland who  
has just arrived in Mex.  
It was good of them to  
come as gentlemen gen-  
erally hate Bayeros so -  
I handed to Dr<sup>r</sup> Forbes  
this morning the sum  
of \$115.00 - a few people  
owe us money yet so  
the proceeds will come  
to a little more - Dr<sup>r</sup>  
Forbes is very much  
pleased - We really  
all worked hard + are  
glad to have all work  
off our hands for a little

fine - Then we had a fancy-  
work table, & one just  
for paintings - Several  
tea tables - We have just  
heard that one lady remark-  
ed that she had never been  
to a Bazaar where she  
had got such good value  
for her money, which was  
nice - A great many people  
came up & shook hands  
with us & said how they  
had enjoyed themselves  
as if it had been a  
garden party - Mother's  
sketches went for \$100 & \$150  
a piece, she did a great  
many, but could have  
sold double the number.  
But I drew with chalks  
some Dutch children

I have never known a summer here with so much rain - It has rained every day (with the exception of most of Friday - Bazaar day) for a week - Before that we thought it was impossible for it to rain here -

Bust, Hester, & I are going up to the Town Hall this afternoon to sing & play - You can hire the piers there by the hour - People are leaving daily now, but we hope to stay late -

Dr. Martin has not been able to get down on account of Dr. Stewart's illness - Miss Martin is here now - Mrs. Molson goes up on the 31<sup>st</sup> - She is looking splendid -

We have not seen much of  
 our neighbor Mrs. Cairns, but  
 we like her very much.  
 She is very attractive &  
 bright. Her two little  
 girls aged 3 & 5 have taken  
 a great fancy to Poppie.  
 They asked him to go for  
 a drive & then take tea  
 with them. Yesterday they  
 sent him over a basket  
 of peaches, pears, apples  
 & oranges. Poppie has  
 given them nearly all away.  
 He has taken a great fancy  
 to Miss Morrison (Mrs. Blake's  
 cousin - a girl of 18). He got  
 a plate, decorated it with  
 leaves, put his choicest  
 fruit upon it & went  
 over to the Blake's. The  
 day before he had noticed

name for Mrs Ineson is  
"gingerbread" & she calls  
him "Loast." When we ask  
him why he calls her that  
he says it is a joke that  
we do not understand -

Last night Mother & I went  
to sea at Mrs Fleet's to meet  
Mr Mackay of Crescent St Church,  
he is staying with Mrs Fleet.

We expect Victor to arrive  
by the end of the week, &  
are all anxious to hear  
of his trip - Mrs Frank

Ross has suggested Bernard  
going for a few days shooting  
with him to Isle Vert, in  
Sept. But we have recom-  
mended Bernard not to put  
so much faith in it, as  
Mr Ross suggests so many

a ladder near Miao Borrero  
window & had intended to  
climb up it, & put the  
fruit in her room without  
telling her who it was from.  
Unfortunately when he got  
there the ladder was gone,  
he looked for it everywhere  
even in their shed, he said,  
but could not find it -  
So they walked into the  
house & up to her room  
knocked, found her there,  
& presented his gift -

Miao Paloner (the bleko governor)  
says that for some time he  
has been paying them visits  
on the shore, & that they  
have had deep discussions  
as to whom he came to  
see - That point is now  
settled - Poppico latest

things which never come off -  
We have seen a good deal  
of Mr. Ross this summer, he  
was here yesterday morning  
afternoon & evening -

I expect Mother has told you  
that the Miss Howard plan  
has fallen through, & that  
she is seriously thinking of  
leading Lois to Grafsgar -

I think on the whole it  
would be a good thing -  
Eva would be better at  
a small private class if  
possible, she would worry  
so about exams etc at Grafsgar -

Mr. Blake has just been in to  
ask Eva & me to go up to  
Lake Bedinal with them to-  
morrow - We are to stay  
there for the night. We are hoping  
for good weather. Eva & Mrs  
Blake are inseparable - Much love  
from Clara
