

Philadelphia

Sunday 16th July/6.

My dear Harrington

I think you had better come down as soon as you can get the Catalogue finished. Richardson is all right again now. he will return to Montreal this week. I shall remain till you come.

I see there are quite a number of magnetic iron ore specimens sent by the C. A. Board which are not mentioned in the Catalogue. They are perhaps however, from the same beds as those which are mentioned only on different lots. — I enclose a bit of some of those not in the Catalogue. —

Perhaps when you come down we can if necessary make out a supplemental

of any thing that has been omitted.

Write and let me know when you will come.

The Box of reports &c has not yet arrived ask Michael to enquire of the Express Co^y about it. It ought to have been here long ago.

Yours sincerely,

Alfred R. Selwyn.
