

SHEFFIELD SCIENTIFIC SCHOOL OF YALE COLLEGE,

New Haven, Connecticut, June 11, 1877

Dear Mr. Huntington

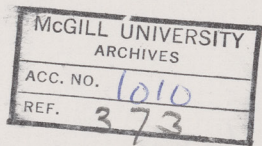

I was very glad to see
your friend Mr. W. Lead, and
I trust through Sherman's
aid he saw all that he wanted
here.
They seemed to meet as old friends
and I do not doubt they had
a good time together, but I was
sorry not to see Mr. W. L. again
before he left town.

The Sawsmith came safely and
was disposed of as directed
Mr. Stettinmiller will probably

acknowledge by letter direct for
his patron of B. Allen and I
both tender our thanks for the
bits which we retained and will
gladly re-present on any way.
It is indeed a beautiful mineral & a great rarity
we can ~~I am sorry that~~

we cannot send you here
on the 26th inst, as we hope
to have a very jolly time of B.
Allen joins with me which
wishes for you and yours

Respectfully
Yr. J. Gould

D. B. G. Harrington
