Peterboro Jan'y 22/78

B. P. Harrington Esq,

Dear Sir

In reply to your letter of the 12th inst in which you wished me to give full statement: I will give you particulars, that is the depth of Clay is from 12 to 18 feet which I work. I keep employed 12 hands. moulding. I use a pressing machine. and I turn out — 12000 pr day and from One Million six hundred thousand to two Million pr year. the Brick which I sent to you ~~cost~~ cost 28¢ pr thousand. extra, as they are pressed the second time I also

have sent you a sample
of the White Clay but are
off different kinds. And
they both make the same
class of brick it is for
you to judge which is the
best material. in making
of the same. you will confer
a favour. by answering this
and let me know whether
you received all safe.

By so doing
I am your Obedt
Munk Curtis
