Sirs:

We employ from 50 to 60  
 men when all are working & the machines  
 are all kept busy which is nearly all  
 the time it takes all of 60 men  
 = We make from 150 to 200 monuments in  
 a year principally for customers in Ontario  
 and 500 to 700 columns of different sizes  
 mostly small these go principally to New  
 York & Philadelphia = We worked up  
 last year between 300 & 400 tons  
 I think this answers all your questions  
 if not I will see you Monday or two

Yours truly
