

Office Board of Trade,

Montreal 15<sup>th</sup> April, 1878

My Dear Sir,

I regret very much troubling you so often as I have been doing lately, - and would apologize for again obtruding. The Printers are, however, closing in upon me, and any information you can kindly summarize for me relative to locations of Petroleum, Salt, and Coal, will be wanted immediately.

Be pleased, therefore, to favor <sup>me</sup> as soon as possible and much obliged,

My Dear Sir,

Yours truly

W. J. Patterson
