

St Louis de Gonzague
Nov. th 6. 1878

Dr. Harrington

Dear Sir

I would be much obliged to you, if you will be pleased to allow me to make use of your name in connection with the annexed advertisement

If the advertisement referred to, is not to your liking, please cancel the same and return it to me,

I am Dear Sir

Your most obedient servant
David Rodges

For sale

Extensive beds of stone
specimens of which were
sent to Dr. Hannington
of the Geological Survey of
Canada, who pronounced
them to be Dolomite,
suitable for making hydraulic
cement of a good quality.

The quarry is situated
in the parish of St Louis de
Goyaque, in the Province of
Quebec. Intending purchasers
see our specimens of the stone
and further information at
No. 1 Street Montreal city.
