Phil<sup>a</sup> Jan 24<sup>th</sup> 1881

My Dear Harrington

As I have not the list of members of the Society of Mining Engineers at hand I do not know if you belong to that honorable body, but I would like so much to see you again that I write on the chance, to ask you, in case the Feb. meeting of the Society in Philadelphia is sufficient inducement, to bring Mrs. Harrington to our house for the occasion. If you will come and stay with us during the meeting which begins Tuesday Feb 15<sup>th</sup> and lasts through the week it will give Mrs. Brinley unqualified

pleasure to receive Mrs. Harrington  
and yourself and to do what she  
is able to make your visit agreeable.  
If you are not a member I suppose  
the fact that you live across the  
border would not stand in the  
way of your becoming one.

The programme includes the  
reading of papers & receptions at  
the Penn Club and at the Academy  
of fine arts. a visit to the Midvale  
steel works and to Bishops platinum  
furnace. a dinner also. I need  
not say how much pleasure it  
would give Davenport and myself,  
to see you again. If you are in  
love with your own winter climate  
it will only be necessary for the  
weather to hold as it has been  
since Christmas for you to readily  
imagine yourself in Canada

I do hope indeed you will find it  
in your heart to come, and not  
alone. Mrs Brinley wants to know  
my friends, and I would like to  
show you the boy and girl.  
Once more let me urge you to take  
this opportunity for a little vacation  
and believe me

Sincerely Yours

Charles A Brinley
