My dear Dr Harrington

When I was last in Montreal you & Mrs. Harrington were kind enough to ask me to stay with you the next time I went down.

I propose taking advantage of the cheap trips during next week to run to Montreal for two or three days. I have a couple of other invitations but would prefer to spend a day or so of the time with yourselves provided always it is perfectly convenient to you. I must write (Hudson's Bay style) but you know I am coming but if

your room is otherwise occupied
for this occasion don't make the
slightest attention on my account.
I may have the pleasure of a
day's visit to you some other
time.

My sister - Mrs. Cow, Miss Anna
Smith, will probably go down
with me, but she is engaged
to stay at the Parnseys in
Victoria Street.

With kind regards to yourself & Mrs.
Harrington believe me
Very truly yours
