Dear Sir:

I forward you with this  
 the promised specimens. They are few in  
 number but I think you will like some of  
 them. Am not quite sure about the Thomsonts,  
 should be glad to learn your opinion if you  
 should test it.

I try to solicit your interest in an  
 effort to advance the popular study of  
 the Natural Sciences by means of the "Canadian  
 Postal College of the Natural Sciences" - formed  
 the Academic Science Club. Am happy to  
 say that many of the leading scientists of  
 Canada are giving the enterprise their  
 unqualified support. Should be happy to  
 propose you as an honorary member & count you  
 among our supporters.

Could you give me in publication any interesting  
 facts in regard to the approaching meeting of  
 the British Association at Montreal?

Respectfully yours  
 A. J. Poiré
