CORNER 49TH STREET & 4TH AVENUE,

New York, May 12 1884

My dear Sir

I received yours of May 5 with the enclosure for which I send you a receipt. I am glad you took the Microbites there are only very few of them. I am sorry to say that the illness of my wife which has been serious will probably compel me to go to Europe with me early in June. I hope however before I go to get some of the minerals for exchange which you showed me. The rest of the Microbites I expect to take to Europe with me & don't expect to bring any back.

Yours very truly
Wm. C. C. C.
