

# Natural History Society of New Brunswick.

LEB. BOTSFORD, M. D., PRESIDENT.  
G. U. HAY, CORRESPONDING SECRETARY.

St. John, N. B., May 25 1884

J. B. Hamington Esq.

Dear Sir

Your favor was duly received & I at once had an interview with our Mayor. I left the letter with him to think over the matter - saw him again to day -

If you will address him officially he will bring the matter before the Common Council. He does not think that the City Fathers will take any action but will try them - as to the Citizens generally he agrees with me that there is not any likelihood of much if any action <sup>being</sup> taken by them. A few will no doubt be ready to apply for membership and if thirty application forms are sent to his wish he will gladly take charge of them - He also has expressed his desire and willingness to receive and pay due attention to any member of the Association who may visit the City

I shall bring the subject to the  
notice of our Nat Hist Society at  
its first meeting.

Will you please inform me  
respecting the facilities which  
will be afforded to members  
for travelling by R.R. or S. Boat.

I am  
Yours respectfully

L B Boesporce
