Office of the Water Works
CITY HALL,

Montreal, July 14th 1884

Dr. B. J. Harrington

Dear Sir

I am seeking information about the Coal measures of our Lower Provinces. Can you inform me if there is any book treating of them, or where I could likely get the necessary information.

I am told you went into the subject pretty fully, and I thought you had perhaps published the result of your labours thereon.

The favour of an early reply will greatly oblige

Yours Sincerely
Louis Lesage
Sup. of W.W.
