Professor Bern. Harrington  
Montreal -

My dear Sir : Perhaps  
You may remember meeting  
me last August at Montreal.  
Only a few days since I  
discerned what you had  
published on the alteration  
of supreme to humbleness in  
Your paper on the apatite de-  
fects of Canada. The sub-  
ject is one which has inter-  
ested me greatly and to which  
I have devoted some study.

I send you herewith the few  
notes I have thus far written  
on the subject  
& would beg that you would  
kindly furnish me with a  
copy of your paper if you  
still have any at your dis-  
posal.

With sincere regards,

Believe me very truly yours
