My dear Professor

I returned to England
a few days since and have
settled down to work - Now
my house is empty - I am
alone - and you must
just bring your traps and
occupy a room - You can
be in the city in thirty
minutes from my house
(by rail) - I have lots -

of work to do. some of which must
be done before the coming week
Therefore you will be your
own master to come and to go.

(Saturday)

To-morrow, I have to be in the
country for the greater part of
the day but shall be back
to dinner at 7.30 when
I shall hope to find you
arrived - You shall do
just as you like, you can
come and go as at an
hotel - and I shall only
ask you to excuse any
deficiencies due to the
mishep of the household
