

Otto Hahn
June 1889

Toronto 25. June 1889
Major street 57.

Dear Sir!

I got your kind letter yesterday after
noon and I read now
Meteorites
and Minerals

as you wrote me, I guess you prefer
a nearly perfect stone of the typical
kind of Chondrites showing the best
exclusions.

The minerals I lay before you for
choice. I hope you find some
interesting ones.

It is to say Sir William my best
regards. I am

Yours Truly
Dr Otto Hahn.
