Dr. B. J. Harrington,
Wallbrae Place,

University St.,

Dear Sir/-

We are interested in a Silver mine on Kootenay Lake in British Columbia, which we are desirous of having inspected and reported upon by a reliable authority. We should be glad to know if you could find it convenient to undertake this for us. ?

The mine is situated on the edge of the Lake, exactly opposite the town of Ainsworth, and is very accessable, as our men could row you across from Ainsworth, and set you down right at the mouth of the tunnel.

If you could see your way to undertake this for us, we should be glad to know upon what terms you would be willing to visit British Columbia for the purpose, and how soon you could be ready to start, and oblige,

Yours faithfully,

Irwin, Hopper & Co.
